

CGA Stakeholder Summit

Sunshine State One Call, along with the Common Ground Alliance, is conducting a FREE damage prevention summit in NE Florida. The information available would be of great benefit to the construction industry.

Sunshine State One Call is the notification center for “Call 811 Before You Dig” and we are charged with providing the educational requirements of Chapter 556, F.S., The Underground Facility Damage Prevention and Safety Act. We do this by conducting seminars, workshops, summits and one-on-one presentations such as this...a great opportunity for all of the members to get the latest on all things “Call 811 Before You Dig”!

The event is FREE, including lunch, but there is a pre-registration need. Online registration can be found at http://www.callsunshine.com/ssocof/education/20090312st_aug.htm

Location: (World Golf Village facility)
Ring Power
500 World Commerce Parkway
St. Augustine, FL 32092

Sunshine State One Call needs the support of the Florida Transportation Builders Association to make this a success. Feel free to contact me if there are any questions.
